TRAINING CERTIFICATE

WEB DEVELOPMENT   **Internshala, Online**
- Completed an 8-week certified online training in Web Development covering HTML, CSS, Bootstrap, DBMS, PHP, JS, React, and Final Project modules.
- Achieved a remarkable 97% score in the final assessment, showcasing comprehensive understanding and proficiency in the course material.
- Recognized as a top performer among participants, demonstrating consistent dedication and exceptional performance throughout the training duration.

PROJECTS

Shop Application   KOTLIN | JAVA | PROVIDER | FIREBASE
- Implemented Firebase Authentication (Kotlin/Java) for secure user login/signup.
- Established Role-Based Access Control (RBAC) using Firebase Authorization for differentiated user permissions.
- Secured sensitive areas like product management, granting access solely to authorized administrators.
- Manage Products section enabling CRUD operations and product addition via a form.

Third Eye (Security Camera)   JAVA | XML | MYSQL | FIREBASE
- Engineered a dual-role system (user/admin) in the "Third Eye Camera" project, ensuring distinct functionalities and access levels.
- Implemented secure authentication mechanisms for users and administrators, enabling personalized access to features like live feeds and administrative controls.
- Provided users with access to live camera feeds and account management, while administrators gained control over cameras and user accounts for comprehensive surveillance oversight.
